

To Whom It Concerns:

I would like to speak to the integrity of the Ray Hamilton Company , not only in the fairness of pricing, but also the fact that they arrive for pickup and deliveries on time, with sufficient specialized equipment to manage our products carefully. In the 2 years that we've been contracting directly with The Ray Hamilton Company, I've found them to be very resourceful in problem solving and providing a level of service that we haven't been able to find with other transportation companies. Both Jay Wallis and Dennis Loftus have worked together to create the type of company we are happy to partner with for our transportation needs.
